# ION Filtration System

## ION Filtration System

Boost smiles and energy with an endless supply of clean, healthy, freshly filtered drinking water. Simple, smart and loved by our customers, the ION system delivers cold, hot or even sparkling water at a touch of the button. With unparalleled cooling capacity and an energy-saving SleepMode, ION dispenses reliably cold water while saving you up to 75% on electrical usage compared to other coolers. And, since ION water is bottle free, it never sits stagnant in a plastic container, which is good for your workplace and the planet.

Water

# Alta Bottled Water

## Alta Bottled Water

Bottled water is an excellent way to ensure great-tasting water anywhere in the office, without having to connect to a water source. We're proud to bottle fresh, great-tasting Alta Purified Drinking Water and Spring Water in our own plant, which is approved by the State of California and the FDA.

### Spring Water

Enjoy pure, clean spring water direct from Baxter Springs in the beautiful Sierra Mountains. Nothing added, nothing changed—just clean, fresh water the way nature created it.

### Purified Water

Filtered by a multi-stage reverse osmosis process that removes all impurities and minerals, this pure, clean water is all your employees will taste.

### No-Spill™ Water Safe System

All our Alta bottled water comes with a tamper-evident, self-sealing cap, so there are no spills, no splashes and no mess. Changing a bottle has never been simpler.

#### SPECIFICATIONS:

- UL & c-UL Listed: Commercial use only
- Electrical: 120 VAC, 554 Watts
- Dimensions: H: 38" x W: 13" x D: 13"

WE BRING HAPPINESS.
