## Beverages on Tap

Please every palate with a tasty array of coffees and refreshing kombucha offerings.

### Black Medicine Cold-Pressed Coffee

Associated has partnered with Black Medicine, who is pressure brewing iced coffee locally in Oakland, CA. The flavor profile developed is bold and very intense. It is strong without being bitter, smooth while still having a good edge. It is complex and somewhat fruit-forward. Black Medicine is cold coffee, intensified. Chose from nitro infused or still.

- Still 9390

### Verve Nitro Flash Brew

Flash Brew starts with our directly traded Ethiopian and Colombian Farmlevel coffees. After precise extraction through a proprietary hot brewing process in an oxygen-free environment, it's flash chilled and infused with nitrogen. Nitrogen removes any remaining oxygen, keeping the coffee ultra-fresh and providing a creamy mouthfeel.

- Nitro 9395

### Stumptown Cold Brew

Stumptown's Nitro Cold Brew is cascading and creamy with all of the giddyup of their original Cold Brew Coffee and a smooth nitro-draft mouthfeel.

- Nitro 9398

### Brew Dr. Kombucha

Brew Dr. Kombucha is produced entirely in-house, leaf to bottle, using only whole, organic ingredients with no added nonsense. Every bottle of 100% raw Brew Dr. Kombucha is packed with naturally occurring live and active cultures including beneficial bacteria, yeasts, and organic acids.

- Clear Mind 9095  
Blend of rosemary, mint, sage and green tea.
- Superberry 9098  
A fruity blend of sweet and tart berries, hibiscus, and oolong tea.
- Seasonal Offering 9096  
Seasonal selection rotates based on seasonal tastes and flavors.
