

Vitro X1

The Vitro X1 single cup espresso machine has been developed with attention to detail and designed to compliment any office space. The Vitro X1 is easy to use and maintain, delivering a consistent high standard coffee experience. It offers velvety chocolates and the very best coffee preparation, from the bean to the cup. A full process of coffee grinding, tamping and brewing are made automatically in a matter of seconds. The Vitro X1 has an independent hot water serving area which allows you to prepare tea & other infusions with clean and fresh hot water. Perfect for mid-sized traffic or accompanying the X5 in smaller break areas.
