

# Vitro X5

The Vitro X5 high-capacity single cup espresso machine has been developed with attention to detail and designed to compliment any office space. The Vitro X5 is easy to use and maintain, delivering a consistent high standard coffee experience. It offers velvety chocolates and the very best coffee preparation, from the bean to the cup. A full process of coffee grinding, tamping and brewing are made automatically in a matter of seconds. The Vitro X5 has an independent hot water serving area which allows you to prepare tea & other infusions with clean and fresh hot water. Perfect for high traffic areas.
