

ION Touchscreen Filtration System

Boost smiles and energy with an endless supply of clean, healthy, freshly filtered drinking water. Simple, smart and loved by our customers, the ION system delivers cold, ambient, hot or even sparkling water at a touch of the button. With unparalleled cooling capacity and an energy-saving SleepMode, ION dispenses reliably cold water while saving you up to 75% on electrical usage compared to other coolers. And, since ION water is bottle free, it never sits stagnant in a plastic container, which is good for your workplace and the planet.

FEATURES:

- InstaChill cooling in a sealed water pathway
- Unparalleled cooling capacity
- Touchscreen Technology that tracks the amount of plastic bottles saved
- Cold, ambient, hot and sparkling water options
- Energy-saving SleepMode
- Offers 10x the cooling capacity of a standard office water cooler
- Lofty 9" dispensing height for carafes, bottles, etc
- Energy Star rated
- Made in USA
